The Phoenix and the Carpet - Edith Nesbit - The Phoenix and the Carpet is a fantasy novel for children, written in 1904 by E. Nesbit. It is the second in a trilogy of novels that began with Five Children and It (1902), and follows the adventures of the same five protagonists - Cyril, Anthea, Robert, Jane and the Lamb. Their mother buys the children a new carpet to replace the one from the nursery that was destroyed in an accidental fire. The children find an egg in the carpet which hatches into a talking Phoenix. The Phoenix explains that the carpet is a magical one that will grant them three wishes per day. The five children go on many adventures which eventually wears out their magical carpet. The adventures of the children are continued and conclude in the third book of the trilogy, The Story of the Amulet (1906). This middle volume of the trilogy that began with Five Children and It and concludes with The Story of the Amulet deviates somewhat from the other two because the Psammead gets only a brief mention, and because in this volume the children live with both of their parents and their younger brother—the Lamb—in their home in London. Consequently, there is less loneliness and sense of loss in this volume than in the other two. In

both of the other volumes, circumstances have forced the children to spend a protracted period away from their familiar London home and their father; in *Amulet*, their mother and the Lamb are absent as well. A continuing theme throughout *The Phoenix and the Carpet* is, appropriately enough, the ancient element of fire. The story begins shortly before November 5, celebrated in England as Guy Fawkes Night. Traditionally, children light bonfires and set off fireworks on this night. The four children have accumulated a small hoard of fireworks but are too impatient to wait until November 5 to light them, so they set off a few samples in the nursery. This results in a fire that destroys the carpet. Their parents purchase a second-hand carpet which, upon arrival, is found to contain an egg that emits a weird phosphorescent glow. The children accidentally knock this egg into the fire: it hatches, revealing a golden Phoenix who speaks perfect English. It develops that this is a magical carpet, which can transport the children to anywhere they wish in the present time, although it is only capable of three wishes per day. Accompanied by the Phoenix, the children have exotic adventures in various climes. There is one moment of terror for the children when their youngest brother, the Lamb, crawls onto the carpet, babbles some incoherent baby talk, and vanishes. Fortunately, the Lamb only desired to be with his mother. At a few points in the novel, the children find themselves in predicaments from which the Phoenix is unable to rescue them by himself; he goes to find the Psammead and has a wish granted for the children's sake. In addition, in the end, the carpet is sent to ask the Psammead to grant the Phoenix's wish. These offstage incidents are the only contribution made by the Psammead to this story.

This book interrogates the process of court reporting on rape and other sexual crime cases involving Australian footballers. At the intersection of sport, gender, media and the law, it uncovers the story behind rape myths and stereotypes in media. This book analyses newspaper reporting alongside transcripts of the trials they represent and interviews with the journalists themselves. Waterhouse-Watson's work maps structural factors within newsrooms, and the complex relationship between the judiciary and media, that affect the practice of court reporting. This book approaches key journalism concepts like objectivity and balance critically, illustrating the layers of mediation that surround a complainant's testimony; the way sport shapes the meaning of courtroom and media narratives in these cases; and the tension between racism and sexism when race is thematised or otherwise highlighted. Ultimately, the book proposes an ethics of court reporting that protects individual complainants, as well as advancing public understandings of the crime.

A stunning new psychological thriller set in past and present-day Cumbria from the award-winning author of the Dalziel and Pascoe series. Things move slowly in the tiny village of Illthwaite, but that's about to change with the arrival of two strangers. Sam Flood is a young Australian post-grad en route to Cambridge. Miguel Madero is a Spanish historian in flight from a seminary. They have nothing in common and no connection, except that they both want to dig up bits of the past that some people would rather keep buried. Sam is looking for information about her grandmother who left Illthwaite courtesy of the child migrant scheme four decades earlier. The past Mig is interested in is more than four centuries old. They meet in the village pub, the Stranger House, a remnant of the old Illthwaite Priory. They can find nothing to agree on. Sam believes that anything that can't be explained by math isn't worth explaining; Mig sees ghosts; Sam is a fun-loving, experienced young woman; Mig is a 26-year-old virgin. But once their paths cross, they become increasingly entangled as they pursue what at first seem to be separate quests, finding out the hard way who to trust and who to fear in this ancient village. The action is fast, there are clashes physical and metaphysical, and shocks natural and supernatural, as the tension mounts to an explosive climax. But fans of Reginald Hill's will not be surprised to find a few laughs along the way. And very loyal fans might even recognize a ghost from the very distant past. . . .

Death hounds, shape shifters, and vampires are among the patients treated by the Holmes-like Dr. Taverner and his assistant Dr. Rhodes in this work of supernatural fiction by acclaimed spiritualist and occult writer Dion Fortune. First published in 1926, the adventures of Dr. Taverner and Dr. Rhodes take readers across the marshy moonlit fields of nightfall, hunting spirits and keeping watch over souls. Suffering from vampirism? Being stalked by a death hound? Haunted by past life debts? Family under a suicidal curse? From across the countryside patients and their desperate families come to seek treatment for unconventional diseases from an unconventional doctor. His secret? Treating the diseases of the occult. Though Fortune wrote *The Secrets of Doctor Taverner* as her first novel, she maintained that all the events were based on true occurrences. Many believe Taverner to be Fortune's own spiritual teacher, Dr. Moriarty, and Rhodes to be based on Fortune herself. An essential and fun read for anyone interested in the Western Mystery Tradition, Dion Fortune, the melding of medicine and magic, or just good old-fashioned paranormal fiction.
