Fraser, History of Beekeeping in Britain — **Northern Bee Books**

Sales of honey have dropped for the first time in six years, as British bee colonies continued to decline due to colony collapse disorder and bad weather. Figures from the British Beekeepers Association revealed that nearly a third of hives failed to survive the winter of 2007 while a fifth of the UK's colonies were lost in 2008.

History of Honey Bees in the United Kingdom. The article below is based on a lecture given by Philip Denwood to the SICAMM Conference in Landquart, Switzerland, on 1st September 2012. Articles by Dr. Dorian Pritchard, 1 and by Norman Carreck 2 of the Laboratory of Social Insects at Sussex, have presented the evidence, convincing in my opinion, for the immigration of the honey bee into mainland Britain across the land bridge from Europe at least 9000 years ago, and its continued existence ...

History of Honey Bees in the United Kingdom

In the U.K. practical beekeeping was led in the early 20th century by a few men, pre-eminently Brother Adam and his Buckfast bee and R.O.B. Manley, author of many titles, including iHoney Production In The British Islesi and inventor of the Manley frame, still universally popular in the U.K. Other notable British pioneers include William Herrod-Hempshall and Gale.

History of Beekeeping | **Galway Beekeepers**

Around 2,000 years ago, beekeepers began using the first artificial beehives, called skeps [source: Galway Beekeepers' Association]. Skeps look like overturned pots and were made from either baked clay or woven straw. A small hole near the bottom of the skep allowed the bees to come and go, and the comb was laid down inside.

The History of Beekeeping — **TheHistory of Beekeeping** ---

Beekeeping (or apiculture) is the maintenance of bee colonies, commonly in man-made hives, by humans.Most such bees are honey bees in the genus *Apis*, but other honey-producing bees such as *Melipona* stingless bees are also kept. A beekeeper (or apiarist) keeps bees in order to collect their honey and other products that the hive produce (including beeswax, propolis, flower pollen, bee pollen ...

Beekeeping — Wikipedia

The British Beekeepers Association (BBKA) is a registered charity: England and Wales no. 1185343. The National Beekeeping Centre, National Agricultural Centre, Stoneleigh Park, Warwickshire, CV8 2LG | 0300 020 0649

Beekeeping Legislation | **British Beekeepers Association**

Beekeeping in England changed rather little until the late nineteenth century when modern movable-frame hives were introduced. This paper deals with beekeeping from the twelfth to nineteenth centuries. In England and the rest of Europe, the honeybee kept in hives is *Apis mellifera* L. The bees collect nectar and pollen from flowers.

The History of Beekeeping in English Gardens

Beekeeping in hives was probably introduced into the United Kingdom from continental Europe and spread from east to west. Hive beekeeping was well established before the Roman invasion of Britain in AD 43.
