The process of PL/SQL native compilation has been simplified in Oracle 10g. The compiled shared libraries are now stored in the database and extracted as necessary. This means they form part of the normal backup and recovery process, require no manual maintenance and are available in Real Application Cluster (RAC) configurations.

These are the new features for Oracle Database 10 g Release 1 (10.1). Improved Performance. PL/SQL performance is improved across the board. Most improvements are automatic, with no action required from you. Global optimization of PL/SQL code is controlled by the `PLSQL_OPTIMIZE_LEVEL` initialization parameter. The default optimization level improves performance for a broad range of PL/SQL operations.
