Synthetic Biology: A Lab Manual is the first manual for laboratory work in the new and rapidly expanding field of synthetic biology. Aimed at non-specialists, it details protocols central to synthetic biology in both education and research. In addition, it provides all the information that teachers and students from high schools and tertiary institutions need for a colorful lab course in bacterial synthetic biology using chromoproteins and designer antisense RNAs. As a bonus, practical material is provided for students of the annual international Genetically Engineered Machine (iGEM) competition. The manual is based upon a highly successful course at Sweden's Uppsala University and is coauthored by one of the pioneers of synthetic biology and two bioengineering postgraduate students.An inspiring foreword is written by another pioneer in the field, Harvard's George Church: "Synthetic biology is to early recombinant DNA as a genome is to a gene. Is there anything that SynBio will not impact? There was no doubt that the field of SynBio needed 'A Lab Manual' such as the one that you now hold in your hands."

'I devoured A Manual for Heartache in one sitting . . . a kind, honest and wise book about how to make a friend of sadness.' Rachel Joyce, author of The Unlikely Pilgrimage of Harold Fry. When Cathy Rentzenbrink was still a teenager, her happy family was torn apart by an unthinkable tragedy. In A Manual for Heartache she describes how she learnt to live with grief and loss and find joy in the world again. She explores how to cope with life at its most difficult and overwhelming and how we can emerge from suffering forever changed, but filled with hope. This is a moving, warm and uplifting book that offers solidarity and comfort to anyone going through a painful time, whatever it might be. It's a book that will help to soothe an aching heart and assure its readers that they're not alone.

Micro-Hydro Design Manual has grown from Intermediate Technology's field experiences with micro-hydro installations and covers operation and maintenance, commissioning, electrical power, induction generators, electronic controllers, management, and energy surveys.There is an increasing need in many countries for power supplies to rural areas, partly to support industries, and partly to provide illumination at night. Government authorities are faced with the very high costs of extending electricity grids. Often micro-hydro provides an economic alternative to the grid. This is because independentmicro-hydro schemes save on the cost of grid transmission lines, and because grid extension schemes often have very expensive equipment and staff costs. In contrast, micro-hydro schemes can be designed and built by local staff andsmaller organizations following less strict regulations and using 'off-the-shelf' components or locally made machinery.

World Book Night 2018 In 2012, The Recovery Letters was launched to host a series of letters online written by people recovering from depression, addressed to those currently affected by a mental health condition. Addressed to 'Dear You', the inspirational and heartfelt letters provided hope and support to those experiencing depression and were testament that recovery was possible. Now for the first time, these letters have been compiled into an anthology for people living with depression and are interspersed with motivating quotes and additional resources as well as new material written specifically for the book. This powerful collection of personal letters from people with first-hand experiences of depression will serve as a comforting resource for anyone on the journey to recovery.

An explosive expose? of Samsung that "reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior" (The Wall Street Journal). LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD Based on years of reporting on Samsung for The Economist, The Wall Street Journal, and Time, from his base in South Korea, and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows. Seen for decades in tech circles as a fast follower rather than an innovation leader, Samsung today has grown to become a market leader in the United States and around the globe. They have captured one quarter of the smartphone market and have been pushing the envelope on every front. Forty years ago, Samsung was a rickety Korean agricultural conglomerate that produced sugar, paper, and fertilizer, located in a backward country with a third-world economy. With the rise of the PC revolution, though, Chairman Lee Byung-chul began a bold experiment: to make Samsung a major supplier of computer chips. The multimillion-dollar plan was incredibly risky. But Lee, wowed by a young Steve Jobs, who sat down with the chairman to offer his advice, became obsessed with creating a tech empire. And in Samsung Rising, we follow Samsung behind the scenes as the company fights its way to the top of tech. It is one of Apple's chief suppliers of technology critical to the iPhone, and its own Galaxy phone outsells the iPhone. Today, Samsung employs over 300,000 people (compared to Apple's 80,000 and Google's 48,000). The company's revenues have grown more than forty times from that of 1967 and make up more than 20 percent of South Korea's exports. Yet their disastrous recall of the Galaxy Note 7, with numerous reports of phones spontaneously bursting into flames, reveals the dangers of the company's headlong attempt to overtake Apple at any cost. A sweeping insider account, Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with.

"Burrows delivers red-hot chemistry with a masterful mix of playfulness and sensuality." -Publishers Weekly Honor or happiness-he can't have both. Tiberius Flynn may be every inch an English lord, but smart, headstrong beauty Hester Daniels has no use for his high-handed ways--no matter how handsome, charming, or beguiling he is. They only see eye to eye in caring about the feisty little girl who is under their protection. Tiberius's haughty insistence that his wealthy estate in England is a better place for the child than her beloved, rundown Scotland home sparks Hester's fierce protectiveness, and the battle lines are drawn. Praise for The Bridegroom Wore Plaid, a Publishers Weekly Best Book of the Year: "As always, Burrows creates a character driven novel...The slowly simmering sensuality and the strong bonds of family hold readers' interest and hearts."--RT Book Reviews, 4 stars "Will engage readers with emotion and sensuality...Burrows has a talent for filling traditional romance situations with depth and the unexpected." -Booklist
