A collection of lectures given by Watts on Taoist principles and how they can be integrated to effect changes in Western culture.

Like the other volumes in the acclaimed Love of Wisdom Library from Tuttle, Taoism: Way Beyond Seeking compiles lectures delivered by Alan Watts between 1968 and 1973. Essays include The Philosophy of the Tao, Being in the Way, and Landscape, Soundscape. In Taoism, Watts offers the possibility that an ancient oriental way of being in touch with the true nature of nature might guide a technological culture toward reunification with the rest of the planet.

Alan Watts played a major role in bringing Taoist and Zen philosophy to the West in the 1960s and early 1970s. In his later years Watts became increasingly fascinated with the Tao and had been intending before he died to write a classic book on the subject, much as he had done in The Way of Zen. He did not live to complete this. The following chapters are derived from lectures delivered between 1968 and 1973 at weekend seminars. They were lively events and drew great crowds. Those lectures have helped complete the body of work that Watts had completed before his death.

Alan Watts — noted author and respected authority on Far Eastern thought — studied Taoism extensively, and in his final years moved to a quiet cabin in the mountains and dedicated himself almost exclusively to meditating and writing on the Tao. This new book gives us an opportunity to not only understand the concept of the Tao but to experience the Tao as a personal practice of liberation from the limitations imposed by the common beliefs within our culture. The philosophy of the Tao offers a way to understand the value of ourselves as free-willed individuals enfolded within the ever-changing patterns of nature. The path of the Tao is perhaps the most puzzling way of liberation to come to us from the Far East in the last century. It is both practical and esoteric, and it has a surprisingly comfortable quality of thought that is often overlooked by Western readers who never venture beyond the unfamiliar quality of the word Tao (pronounced "dow"). But those who do soon discover a way of understanding and living with the world that has profound implications for us today in so-called modern societies. The word Tao means the Way — in the sense of a path, a way to go — but it also means nature, in the sense of one's true nature, and the nature of the universe. Often described as the philosophy of nature, we find the origins of Taoism in the shamanic world of pre-Dynastic China. Living close to the earth, one sees the wisdom of not interfering, and letting things go their way. It is the wisdom of swimming with the current, splitting wood along the grain, and seeking to understand human nature instead of changing it. Every creature finds it's way according to the laws of nature, and each of us has our own inner path — or Tao.

Free renderings of selections from the works of Chuang-tz?, taken from various translations.

"This dynamic collection of edited transcripts begins with Not What Should Be, But What Is! In this powerful talk on the contrasts between classical Eastern and traditional Western mythologies, Watts questions whether the image of a divine patriarch is still intellectually plausible in light of our ever growing understanding of the universe. He then takes a revealing look at the mystical origins of Christianity in Jesus - His Religion, Or the Religion About Him? and explores how Christianity has diverged historically from those teachings in a brilliant and well researched critique of the Church. In Democracy in the Kingdom of Heaven Watts then carries his inquiry one step further, and asks if indeed a monarchical religion still makes sense in a democratic society. Watts takes a fascinating look at the ultimately anthropomorphic quality of man's view of his god in Images of Man. Here he is only half kidding when he says that "In the beginning there was Man, and he created God in his image," pointing to the highly subjective nature of our inquiry into the highest orders of reality. In the final chapter, Religion and Sexuality, Watts again looks at organized religion, but with more than a touch of humor as he suggests that churches today are sexual regulation societies, and precious little else. To make this point Watts asks, "How else can you get thrown out?" He then goes on to discuss the social implications of the Church's investment in moral issues, and demonstrates that this may in fact be a ploy to cover up for the lack of any substantial religious teaching in organized religion today."-BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. 'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Before he became a counterculture hero, Alan Watts was known as an incisive scholar of Eastern and Western psychology and philosophy. In this 1961 classic, Watts demonstrates his deep understanding of both Western psychotherapy and the Eastern spiritual philosophies of Buddhism, Taoism, Vedanta, and Yoga. He examined the problem of humans in a seemingly hostile universe in ways that questioned the social norms and illusions that bind and constrict modern humans. Marking a groundbreaking synthesis, Watts asserted that the powerful insights of Freud and Jung, which had, indeed, brought psychiatry close to the edge of liberation, could, if melded with the hitherto secret wisdom of the Eastern traditions, free people from their battles with the self. When psychotherapy merely helps us adjust to social norms, Watts argued, it falls short of true liberation, while Eastern philosophy seeks our natural relation to the cosmos.

Tao has been built into the foundation of East Asian culture for millennia, and many books have been written to explain it. But Tao cannot fully be explained in words; it can only felt and experienced. Tao is something you live, day by day, moment by moment. It's the omnipresent oneness beyond ephemeral phenomena that expresses itself in everything. New York Times bestselling author Ilchi Lee, an enlightened Tao master from South Korea, has laid out a path to living Tao every day. Along this path, he guides you to an understanding of the meaning of birth, death, and everything in between, building a foundation for living a complete and whole life. The universal principles contained in "Living Tao: Timeless Principles for Everyday Enlightenment" stem from the Korean practice of Sundo, an ancient tradition of mind-body training, as well as Lee's own life experience. With these tangible principles, Ilchi Lee makes this profound topic simple and accessible. "Living Tao" has an unparalleled depth in its simplicity that anyone can absorb and immediately apply. * 2015 INDIEFAB Book of the Year Award Winner, Bronze, Body, Mind & Spirit
