In the world of investments, a company's price-to-earnings ratio, or P/E ratio, is a measure of its stock price relative to its earnings. If you're trying to determine whether a stock is a good investment, the P/E ratio can help you gauge the future direction of the stock and whether the price is, relatively speaking, high or low compared to the past or other companies in the same sector.

he Completely Honest Guide to Staying Consistent in Day TradingDay trading may sound like a scary endeavor if you are just starting out. Know that this book is NOT a get-rich-quick scheme that promises you a million dollars overnight. However, it will break down everything you need to know and prepare yourself with before you step into the adrenaline charged world of stock trading. The book will teach you of the 3 most important aspects of day trading. 1) Mindset 2) Strategy 3) Preparation Combine these 3 skills to absolutely maximize your profit potential and stay consistently profitable in the stock market. This Book Will Answer the Following Questions:The truth about day trading Why do traders fail What brokers should you choose How much do you need to get started How to build a watchlist How to scan for winning stocks What are the profitable charts I look out for Daily routine of a stock trader Mental aspects of trading How to trade a small account How to trade MORE with LESS And much more! For a low price, I will pass on everything I've learnt from the stock market in the past 7 years to you and give you a better understanding of what it takes to be consistently profitable in the stock market!

Why This Book... This book explains in clear and understandable language how anyone can benefit from learning about trading and investing in the stock market. All of the necessary basics are set forth, including the difference between trading and investing. A veteran trader, Andrew Aziz, shares some of his own proven day trading strategies and discusses key "to dos" and "not to dos" every new day trader must know before putting their hard-earned money at risk. Two chapters of the book are dedicated to the art and science of swing trading. Effective swing trading strategies are outlined, and all are amply illustrated with examples from real trades. The final section of the book is devoted to investing in the market. You will learn not only how to read a company's financial statements and select winning stocks, but also how to construct a well-balanced investment portfolio. Given that the author and his guest contributor have quite different backgrounds in finance, a unique opportunity is created for the reader to capture a very broad picture of the true potential of trading and investing in the stock market. In summary, you will learn the following key concepts by reading this book: What are stocks? What are exchanges, indices and ETFs. How to pick the right brokerage account. How to read price action and candle stick charts. How to day trade: opening range break down, ABCD pattern How to swing trade: Cup and Handle, Head and Shoulders pattern How to pick stocks based on P/E multiple and key fundamental ratios What to look for in income statements, balance sheets, and cash flow statements of different companies How to construct a well-diversified portfolio

There are so many trading books out there on the market that is simply made up of ideas that can be easily found on the Internet for free, and this book is not one of them. This book is not another "Day Trading for Dummies" type of book but contains real strategies and solid school of thoughts of accomplished day traders. It is a no-nonsense, honest guide to successful day trading that I believe anyone can learn from.Here Is A Preview Of What You'll Learn... What is Day Trading Why you should start day trading How to get started Advice for day trading Much, muchmore! Tags: (day trading, stock, stock marking, make money online, trading, investing)

The honest guide to cooking is tries to boil cooking down to the core - looking at what you really need to know when you cook. - You will find no recipes in the guide - You will find no inspirational and beautiful photography - You will find no dainky paragraphs about the European countryside This is a guide to cooking. It is a guide to the bare necessities, what to do when you've messed up, a guide to cooking quirks and a fun-loving curious approach to an everyday subject. It is not a cookbook.

The best-selling investing "bible" offers new information, new insights, and new perspectives The Little Book of Common Sense Investing is the classic guide to getting smart about the market. Legendary mutual fund pioneer John C. Bogle reveals his key to getting more out of investing: low-cost index funds. Bogle describes the simplest and most effective investment strategy for building wealth over the long term: buy and hold, at very low cost, a mutual fund that tracks a broad stock market Index such as the S&P 500. While the stock market has tumbled and then soared since the first edition of Little Book of Common Sense was published in April 2007, Bogle's investment principles have endured and served investors well. This tenth anniversary edition includes updated data and new information but maintains the same long-term perspective as in its predecessor. Bogle has also added two new chapters designed to provide further guidance to investors: one on asset allocation, the other on retirement investing. A portfolio focused on index funds is the only investment that effectively guarantees your fair share of stock market returns. This strategy is favored by Warren Buffett, who said this about Bogle: If a statue is ever erected to honor the person who has done the most for American investors, the hands-down choice should be Jack Bogle. For decades, Jack has urged investors to invest in ultra-low-cost index funds. . . . Today, however, he has the satisfaction of knowing that he helped millions of investors realize far better returns on their savings than they otherwise would have earned. He is a hero to them and to me. Bogle shows you how to make index investing work for you and help you achieve your financial goals, and finds support from some of the world's best financial minds: not only Warren Buffett, but Benjamin Graham, Paul Samuelson, Burton Malkiel, Yale's David Swensen, Cliff Asness of AQR, and many others. This new edition of The Little Book of Common Sense Investing offers you the same solid strategy as its predecessor for building your financial future. Build a broadly diversified, low-cost portfolio without the risks of individual stocks, manager selection, or sector rotation. Forget the fads and marketing hype, and focus on what works in the real world. Understand that stock returns are generated by three sources (dividend yield, earnings growth, and change in market valuation) in order to establish rational expectations for stock returns over the coming decade. Recognize that in the long run, business reality trumps market expectations. Learn how to harness the magic of compounding returns while avoiding the tyranny of compounding costs. While index investing allows you to sit back and let the market do the work for you, too many investors trade frantically, turning a winner's game into a loser's game. The Little Book of Common Sense Investing is a solid guidebook to your financial future.

As a new mom, Jessica Alba wanted to create the safest, healthiest environment for her family. But she was frustrated by the lack of trustworthy information on how to live healthier and cleaner/delivered in a way that a busy mom could act on without going to extremes. In 2012, with serial entrepreneur Brian Lee and environmental advocate Christopher Gavigan, she launched The Honest Company, a brand where parents can find reliable information and products that are safe, stylish, and affordable. The Honest Life shares the insights and strategies she gathered along the way. The Honest Life recounts Alba's personal journey of discovery and reveals her tips for making healthy living fun, real, and stylish, while offering a candid look inside her home and daily life. She shares strategies for maintaining a clean diet (with favorite family-friendly recipes) and embraces nontoxic choices at home and provides eco-friendly decor tips to fit any budget. Alba also discusses cultivating a daily eco beauty routine, finding one's personal style without resorting to yoga pants, and engaging in fun, hands-on activities with kids. Her solutions are easy, chic, and down-to-earth: they're honest. And discovering everyday ways to live naturally and authentically/true to you!could be honestly life-changing.

In an incredibly fun and accessible two-color graphic-book format, the cofounders of Honest Tea tell the engaging story of how they created and built a mission-driven business, offering a wealth of insights and advice to entrepreneurs, would-be entrepreneurs, and millions of Honest Tea drinkers about the challenges and hurdles of creating a successful business—and the importance of perseverance and creative problem-solving. Seth Goldman and Barry Nalebuff began Honest Tea fifteen years ago with little more than a tea leaf of an idea and a passion to offer organic, freshly brewed, lightly sweetened bottled tea. Today Honest Tea is a rapidly expanding national brand sold in more than 100,000 grocery stores, restaurants, convenience stores and drugstores across the country. The brand has flourished as American consumers move toward healthier and greener lifestyles.

Church planting has become a cottage industry. National conferences, hip planting organizations, and all-in-one resource kits celebrate the thrill of pioneering a church and inspire visions of glorious victories. Yet few who respond to the call are warned what they'll actually encounter: the relentless opposition they'll endure; the eventual scattering of their entire core group; the failure of their tried-and-true, field-tested system. Here's the dirty little secret of church planting: the roadside is strewn with casualties. Many have closed their churches. Some left ministry permanently. Others abandoned the faith altogether. Church planting is at once the greatest and most grueling ministry work on earth. This book is for those toiling in the trenches, those about to bail out, and those considering jumping in. It's for the church planters laboring and struggling, seeing little movement, and wondering what they're doing wrong or why God is failing them. It's also for mother churches, planting organizations, and denominations, as a challenge to rethink and re-calibrate the way they approach and measure planting endeavors. The Honest Guide to Church Planting is a fresh and candid conversation about the challenges and joys of planting new churches. Tom Bernardo speaks the truth so that those involved in church planting can embrace a more accurate and realistic picture of what planting a church is really like: one that not only enables them to survive, but to thrive in this wondrous work.

This book will assist anyone from a first time saltwater angler to a longtime one who just wants to improve. I have given proven advice on what equipment to use, what bait to have, and what fish to target. If you pier fish at all, you definitely need this book, and if you plan to hit the coastal flats, the information inside should enable you to catch fish without breaking the bank.
